Governor Sebelius Makes Appointments to the Board of Technical Professions

Governor Kathleen Sebelius recently appointed two new members to the Kansas State Board of Technical Professions for four-year terms. The new members are Steven S. Brosemer, L.S., Emporia, new land surveyor member and Wendy Ornelas, FAIA, Manhattan, new architect member.

Mr. Brosemer is a graduate of Wichita State University with majors in history and secondary education. He has been an owner or partner in his current business, Geotech, Inc., for the past twenty-five years and has provided land surveying services of every possible type to both the private and the public sectors. For many years, Steve worked with his father and mentor, the late James H. Brosemer, L.S.

Steve Brosemer

Mr. Brosemer served as president of the Kansas Society of Land Surveyors (KSLS) in 1988 and 1989. Currently he is an elected board member of KSLS and serves on the legislative and the historical preservation committees. Mr. Brosemer is a regular land surveyor continuing education presenter at KSLS functions. He also serves on the board of directors of the Lyon County Historical Society and the Emporia Area Chamber of Commerce. Mr. Brosemer replaces Murray Rhodes, L.S.

Wendy Ornelas

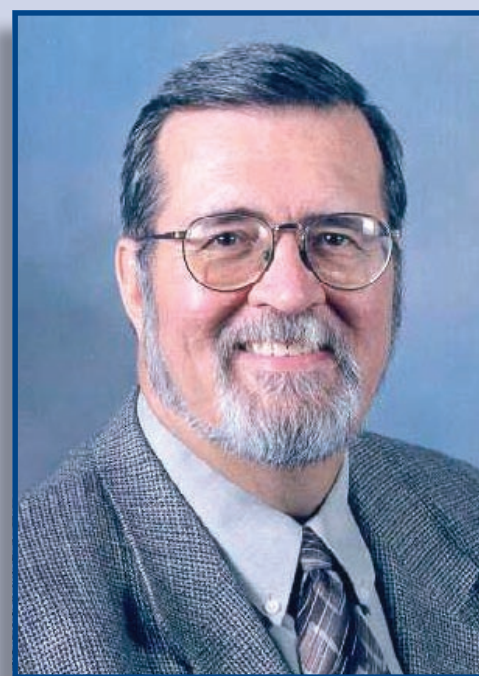

Wendy Ornelas, FAIA, is an Associate Dean at Kansas State University. She earned her bachelor's degree from Cal Poly, San Luis Obispo and her master's degree from Oklahoma State University. Professor Ornelas has taught studio, marketing, and management courses in the College of Architecture, Planning & Design (CAP+D). In addition to her Associate Dean activities with the College, Ms. Ornelas is also the Director of the Department of Architecture's Internship Program and the CAP+D's interdisciplinary doctoral program in Environmental Design & Planning.

Ms. Ornelas is the recipient of the ACSA/AIAS New Faculty Teaching Award, past-president of AIA Kansas, recipient of AIA Kansas' Henry W. Schirmer Distinguished Service Award, the past director for the West Central Region of the Association of Collegiate Schools of Architecture (ACSA), past member of the IDP Coordinating Committee, as well as a member of the advisory committee for the 2005 Internship Conference: Designing Tomorrow's Architect. She serves as a member of the National Architectural Accrediting Board representing the ACSA. Ms. Ornelas is a principal with Condia + Ornelas Architects. Ms. Ornelas replaces Joe Johnson, Architect, whose term expired June 30, 2008.

Board Elects Officers for Coming Year

The Kansas State Board of Technical Professions recently held an election of officers. Richard Moberly, Geologist, was elected Board Chairperson. Mr. Moberly is a licensed geologist from De Soto, Kansas, and was appointed to the Board in June 2000. He is a Senior Consulting Geologist and Vice President of URS Corporation in Overland Park, Kansas, which specializes in Geology, Geotechnical Engineering and the Environmental Sciences. He has been a member and/or officer of many local, state and national professional organizations during his 43-year professional career. Mr. Moberly has been on the Council of Examiners and a Subject Matter Expert for the National Association of State Boards of Geology (ASBOG) for the past 8 years and was recently appointed to the Kansas Geological Survey Advisory Council for a 4-year period.

The other officers elected to the Board were: George Barbee, Vice-Chairperson; David Hoffman, Secretary; Phil Meyer, Chairperson of the ARCH/LA/GEO Committee; and Tim Sloan, Chairperson of the PE/LS Committee.

AGENCY MISSION

To provide maximum protection of the health, safety and welfare of the people of Kansas by assuring that the practice of engineering, architecture, land surveying, landscape architecture and geology in the state is carried out only by those persons who are proven to be qualified as prescribed by the statutes and rules and regulations of the Board of Technical Professions.

Programs Established To Assist With Agency Mission
Licensing, monitoring and regulating of technical professions:

- Examine and certify Intern Engineers
- License, monitor and discipline Engineers
- License, monitor and discipline Architects
- License, monitor and discipline Land Surveyors
- License, monitor and discipline Landscape Architects
- License, monitor and discipline Geologists
- Licensing of Professional and General Corporations

BOARD STAFF

Routing your calls to the numbers below will allow our staff to better assist you by answering questions about the areas they handle. You may also leave a message on our voice mail if we are unavailable and we will return your call promptly.

Disciplinary Action Taken by the Board

Mark L. Bennett Jr.

Disclaimer:

Every effort has been made to ensure that the following enforcement information is correct; however, this information should not be relied upon without verification from the Kansas board office. It should be noted that the names of companies and individuals listed may be similar to the names of parties who have not had enforcement actions taken against them. Disciplinary orders are public information and copies may be obtained by contacting the board office.

**IN THE MATTER OF ROBERT G. BOLING, P.E.
#6206**

Summary:

In November 2005, the Kansas State Board of Technical Professions received a letter of inquiry concerning the engineering practices of Robert G. Boling, a licensed engineer in the State of Kansas. As a result of that inquiry, Mr. Boling entered into a settlement agreement and consent order which included the payment of a \$500 fine. Subsequent to the resolution of that matter, the Board became aware of the fact that on or about October 8, 2007, a formal complaint had been filed against Mr. Boling by the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors regarding a separate issue which alleged that Mr. Boling had violated various statutes and rules and regulations governing the practice of engineering in the State of Oklahoma. As a result of that incident in the State of Oklahoma an administrative monetary penalty was levied against Mr. Boling and his license to practice engineering in the State of Oklahoma was suspended for a period of five years.

Board Action:

Subsequent to learning of the action taken by the Oklahoma Board and the fact that the Oklahoma violations would also constitute violations of the Kansas statutes and rules and regulations governing the practice of engineering, the Kansas Board and Mr. Boling entered into a Settlement Agreement and Consent Order which provided as follows:

1. Respondent Robert Boling will immediately cease and desist from offering to provide engineering services, providing engineering services or holding himself out as authorized to provide engineering services in the State of Kansas and will close his engineering practice effective May 31, 2008.
2. Respondent Robert G. Boling's professional engineering license and seal shall be surrendered forthwith to the office of the Kansas State Board of Technical Professions and shall not be reinstated unless and until Mr. Boling makes application for reinstatement, and the Board takes action on said application.
3. At such time as the Oklahoma Board receives an application from Mr. Boling for reinstatement of his Oklahoma license, the respondent shall provide the Kansas State Board of Technical Professions a copy of his Oklahoma application for reinstatement and any documents evidencing his compliance with the Oklahoma Board's requirement for reinstatement.
4. Robert G. Boling shall forthwith forward to the office of the Kansas State Board of Technical Professions his license and seal to practice engineering in the State of Kansas which shall be retained in the Board office

until such time as the Kansas State Board of Technical Professions has been advised that Mr. Boling's Oklahoma license has been reinstated and his Kansas license has also been reinstated.

5. Mr. Boling shall pay a fine of \$500 and the Board's expenses incurred in the investigation and prosecution of this matter in the amount of \$418, for a total fine and costs of \$918.

Status:

Respondent has forwarded his Kansas engineer's seal to the Board Office and has paid the fine and costs assessed in the Settlement Agreement. At the present time, Mr. Boling is no longer licensed to practice engineering in the State of Kansas.

**IN THE MATTER OF ROCKHILL AND
ASSOCIATES**

Summary:

On October 27, 2005, the Board received an inquiry from a licensed Kansas architect which voiced concerns that Dan Rockhill and/or Rockhill and Associates were engaged in the unlicensed practice of architecture in the State of Kansas. As a result of that inquiry, the Board directed that an investigation be conducted regarding those concerns. In the course of the investigation, the investigator determined that Dan Rockhill, who is a professor in the School of Architecture at the University of Kansas had not engaged in the practice of architecture in violation of the Kansas statutes. The Kansas licensing statutes provide that instructors or professors whose sole employment is teaching architecture are not required to hold a license to practice architecture.

The investigator did, however, determine that Rockhill and Associates which employs a Kansas licensed architect had in fact engaged in the practice of architecture within the State of Kansas. The investigator further determined that while Rockhill and Associates had practiced, offered to practice or engaged in the practice of architecture in the State of Kansas, it had done so without first obtaining a certificate of authorization as required by the Kansas statutes.

Board Action:

As a result of the above determination, the Board and Rockhill and Associates entered into a Settlement Agreement and Consent Order which included the following provisions:

1. Rockhill and Associates admitted that it has practiced, offered to practice and held itself out as authorized to practice the technical profession of architecture in the State of Kansas without being licensed to do so.

2. Rockhill and Associates shall immediately cease and desist from practicing, offering to practice or holding itself out as authorized to practice the technical profession of architecture in the State of Kansas until such time as it has obtained a certification of authorization authorizing such practice.
3. Rockhill and Associates shall immediately cease and desist from referring to itself as an architectural firm or providing architectural services or from in any manner offering to practice, holding itself out as authorized to practice or engaging in the practice of architecture as that term is defined in the provisions of K.S.A. 74-7003(d) and (e).
4. Rockhill and Associates shall immediately cease and desist from using any letterheads, business cards, websites or any other advertisements including telephone book listings which refer to it as providing architectural services.
5. Rockhill and Associates shall pay a fine of \$500 plus all of the Board's expenses including attorney fees and investigative expenses incurred by the Board in the prosecution of this matter in the amount of \$1,853.94 for a total fine and expenses of \$2,353.94.

Status:

Since signing the Settlement Agreement, Rockhill and Associates has paid the fine and costs in full and have applied for and received a Certificate of Authorization to practice architecture in the State of Kansas.

IN THE MATTER OF ALLEN MOORE

Summary:

Allen Moore was a licensed engineer and architect in the State of Kansas. In October, 2007, the Board received information that Mr. Moore had been convicted and sentenced for a felony offense in the State of Missouri. Upon receipt of that information, the Board conducted its own investigation for the purpose of determining whether or not Mr. Moore had been convicted of a felony in the State of Missouri. That investigation confirmed that Mr. Moore had in fact been convicted of a felony and had been sentenced to prison in the State of Missouri.

Board Action:

As a result of Mr. Moore's felony conviction, the Board and Mr. Moore entered into a Settlement Agreement and Consent Order which included the following terms:

1. Mr. Moore admitted that he has been convicted of a felony in the State of Missouri, and that he is presently incarcerated in the custody of the Missouri Department of Corrections serving a fifteen (15) year sentence.
2. Mr. Moore shall forthwith surrender his Kansas licenses to practice engineering and architecture in the State of Kansas as well as his Kansas engineer's seal and his Kansas Architect's seal with said licenses and seals being forwarded to the office of the Kansas State Board of Technical Professions no later than April 1, 2008.
3. Mr. Moore will be afforded the opportunity to reapply for licensure as both an engineer and an architect in the State of Kansas upon his satisfactory completion of the sentence and any subsequent parole or probation that he is required to participate in.

Disciplinary Action/ from page 3

Status:

On April 1, 2008, Mr. Moore surrendered his Kansas engineering and architect seals and both wall certificates, thus meeting the requirements of the Settlement Agreement and Consent Order that he signed.

IN THE MATTER OF BC INSPECTIONS
AND BOB FORSEN

Summary:

In June of 2007, the Board office received an inquiry along with a set of plans for the Grant County Law Enforcement Remodel Project. The inquiry indicated that the project did not have an architect, and that the plans were prepared by a non-licensed individual. Following receipt of that inquiry, the Board directed one of its licensed professionals who had agreed to serve as an investigator for the Board to conduct an investigation regarding the preparation of the plans and specifications for the project. The investigator determined that Bob Forsen d/b/a BC Inspections prepared the architectural plans and specifications and rendered architectural services for the Grant County Commission and the City of Ulysses for the Law Enforcement Center. In so finding, the investigator determined that Mr. Forsen had performed these services “in the open” and in cooperation with inspectors and other technical professionals.

Board Action:

This matter was resolved by a Settlement Agreement and Consent Order entered into between the Kansas State Board of Technical Professions and the respondents B.C. Inspections and Bob Forsen. The terms of settlement included the following:

1. Both BC Inspections and Bob Forsen admitted that they have practiced, offered to practice or held themselves out as authorized to practice the technical profession of architecture in the State of Kansas without being licensed to do so.
2. Both shall immediately cease and desist from practicing, offering to practice or holding themselves out as authorized to practice the technical profession of architecture in the State of Kansas until such time as Mr. Forsen has been licensed to do so and BC Inspections has obtained a certificate of authorization authorizing it to practice the technical profession of architecture in the State of Kansas.
3. Respondents shall immediately cease and desist from referring to themselves as architects or from in any manner engaging in the practice of architecture as that term is defined in the provisions of K.S.A. 74-7003(d) and (e).
4. Respondents shall immediately cease and desist from using any letterheads, business cards, websites or any other advertisements including telephone book listings which refer to either of them as providing architectural services.
5. Respondents shall pay a fine of \$500 plus all expenses of the Board including attorney fees incurred by the Board in the prosecution of this matter in the amount of \$2,356.45 for a total fine and costs of \$2,856.45. Said fine and expenses to be received by the Board on or before April 21, 2008.

Status:

Bob Forsen and BC Inspections have fully complied with all of the terms of settlement set out in the Settlement Agreement and Consent Order.

Kansas State Board of Technical Professions Report of Alleged Violation Form

1. Your Name, Address, & Phone Number:

2. Address of the building or project:

3. Name & address of person being reported:

4. Name of owner of project (if known):

5. Name of construction company involved in project (if known):

6. Please describe why you believe there may be a violation of our laws concerning this project:

[illegible]

7. Please provide any other information you believe is relevant to your complaint:

Board Members Reappointed to Serve Until June 30, 2012

George Barbee who lives in Topeka, Kansas was appointed to the Board in July of 2004. He is a Public Member of the Board and is the new Board Vice-Chairperson. Before retirement, he served for 31 years as the Executive Director of the American Council of Engineering Companies of Kansas.

*George Barbee,
Public Member*

Richard Moberly, new Board Chairperson, is a licensed geologist from Desoto, Kansas, and was appointed as a Geology Member to the Board in June of 2000. He is a Senior Consulting Geologist and Vice President of URS Corporation in Overland Park, Kansas.

*Richard Moberly,
Geologist Member*

Tim Sloan who lives in Manhattan, Kansas was appointed to the Board in September of 2004. He is a Land Surveyor Member of the Board. He is Vice President of Sloan Meier Hancock Engineers and Surveyors. He is the PE/LS Committee Chairperson.

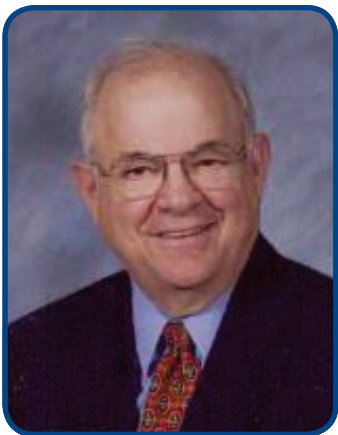

*Tim Sloan, Land
Surveyor Member*

George Dean who lives in Wichita, Kansas was appointed to the Board in July of 2004. He is a Professional Engineer Member of the Board. He retired from Beech Aircraft, Missile System Division where he was project engineer on guidance and controls. He also served 20 years in the Kansas House of Representatives.

*George Dean,
Professional Engineer
Member*

Dr. Tom Mulinazzi who lives in Lawrence, Kansas was appointed to the Board in July of 2000. He is the Professional Engineer/Land Surveyor Member of the Board. He is currently a professor of Civil Engineering at the University of Kansas.

*Dr. Tom Mulinazzi,
Professional Engineer/
Land Surveyor Member*

Cecil Kingsley, P.E., received a plaque from newly elected Chair Richard Moberly in appreciation of his leadership as Chair of the Board for the 2007-08 year.

Licensure Recognition Ceremony Held To Honor Newly Licensed

Newly licensed engineers and surveyors receive their license certificates.

On July 11, 2008, the Capitol Rotunda was the site of a Licensure Recognition Ceremony for newly licensed Professional Engineers and Land Surveyors. More than 140 people attended the ceremony where licensure certificates were presented to 28 engineers and land surveyors who recently passed their licensing exam. The ceremony was a joint effort of the Kansas Society of Professional Engineers, the Kansas Society of Land Surveyors and the Kansas State Board of Technical Professions.

The Keynote Speaker was Deb Miller, Secretary of the Kansas Department of Transportation. She spoke to the new licensees about the importance of their new careers. Also participating in the ceremony were Tom Roberts, P.E., President, Kansas Society of Professional Engineers; Doug Farrar, L.S., President, Kansas Society of Land Surveyors; Richard Moberly, Geologist, Chairman, Kansas State Board of Technical Professions; and Tom Mulinazzi, P.E., L.S., KSBTP Board member.

Helping to celebrate this next step in the careers of those receiving their licenses were several of their supervisors and mentors. KSPE, KSLS and KSBTP hope to make this ceremony a regular event to honor those who have earned their license.

NCARB's 2008 Annual Meeting and Conference: Intern Development Program (IDP) Takes Center Stage

The 89th annual gathering of NCARB Member Boards took place in Pittsburgh, PA, in June 2008. Representing the Kansas Board were David Hoffman, Joseph Johnson, and Vincent Mancini, all Architect members of the Kansas Board, and Jean Boline, Executive Director. Also attending was Betty Rose, recently retired Executive Director of the Kansas Board. NCARB President Douglas K. Engebretson, FAIA, presented Ms. Rose with an appreciation award for her many years of participation in NCARB activities and support of its programs.

Delegates representative of 51 of the Council's 54 jurisdictions voted on twelve resolutions with those relating to the IDP program taking center stage. The most debated resolution both prior to and during the Annual Meeting, Resolution 2008-07 (also known as the "Six-Month Rule"), passed with a vote of 49-1. The rule stemmed from a 2005 study conducted jointly by AIA and NCARB that suggested regular reporting would help facilitate more accurate reporting and a better internship experience. For the last three years, NCARB Member Boards and

committees have debated and discussed how to best incorporate the suggestion before bringing the rule to a vote at the 2008 Annual Meeting.

The resolution will require interns establishing a new NCARB Record on or after 1 July 2009 to submit training reports of no more than six-months duration within two months of the end of each reporting period. On 1 July 2010, the "Six-Month Rule" will go into effect for all interns. The resolution is dependent on a "fully tested and operational" online reporting system. Should the online reporting system not be fully tested and operational by the end of 2008, each implementation date will be pushed back and will go into effect six months after the system has been deemed fully operational by an independent tester.

The resolution was amended by Member Boards to allow parents of newborn infants or newly adopted children to receive a six-month extension of the reporting deadline upon proper application. The same extension was also applied to the Five-Year Rolling Clock for the Architect Registration Examination® (ARE®) through Resolution 2008-04.

Other resolutions related to IDP included changes to employment duration in full- and part-time work and an increase in the number of training units interns may earn from the Emerging Professional's Companion. A summary of all the resolutions including the votes can be found on NCARB's home page, www.ncarb.org.

Other agenda items included a town hall-style question-and-answer session with members of the NCARB Board of Directors; the election of officers for Fiscal Year 2009; and presentation of the 2008 NCARB Prize to the Grand Prize Winner, California State Polytechnic University for their project, "Sustainable Housing in Tijuana, Mexico."

Kansas Board architect members attend the NCARB 2008 Annual Meeting and Conference. Left to Right are Vincent Mancini, Joseph Johnson, David Hoffman.

Delegates also had the opportunity to participate in several workshops, whose topics ranged from IDP Supervisor Guidelines to How to Put Integrity in Integrated Practice and Disciplinary Methods and Models.

Once again, the yearly meeting of NCARB member boards proved to be an invaluable resource for attendees. The business of NCARB is dependent on the direction, guidance, and feedback gathered during the Annual Meeting.

(Parts taken from *NCARB News Clips*, July 3, 2008.)

NCARB President Douglas K. Engebretson, FAIA, presents service award to Betty Rose, former Executive Director of the Kansas Board.

Proposed Regulation Changes for 2009

The Board of Technical Professions is proposing changes to K.A.R. 66-11-5 Admission requirements for fundamentals of surveying examination, K.A.R. 66-12-1 Minimum standards for the practice of land surveying, K.A.R. 66-14-1 Requirements, K.A.R. 66-14-2 Definitions, K.A.R. 66-14-3 Activities, K.A.R. 66-14-4 Criteria, K.A.R. 66-14-5 Computation of credit, and K.A.R. 66-14-7 Records. The official version of the proposed changes was not available in time for publication in this edition of the newsletter. When available, these proposed changes will be posted on the Board’s website, www.kansas.gov/ksbtp. Notice of the public hearing on these changes will also be posted on the website.

NCEES Announces New Electrical and Computer PE Exam Specifications

The National Council of Examiners for Engineering and Surveying has announced changes to its Principles and Practice (PE) of Engineering examination in electrical and computer engineering.

Beginning with the spring 2009 administration, the Electrical and Computer PE exam will no longer be a breadth and depth exam. Instead, the exam will consist of three separate exams divided by subdiscipline. The three subdisciplines within the Electrical and Computer PE exam will be as follows:

- Electrical and Computer—Power Examination
- Electrical and Computer—Computer Examination
- Electrical and Computer—Electrical and Electronics Examination

Consequently, as of the April 2009 administration, candidates for the Electrical and Computer PE exam will be required to specify during registration which one of these exams they wish to take.

The current Electrical and Computer PE exam includes a morning breadth exam and an afternoon depth exam

consisting of three separate modules. The changes to the specifications which were announced in April came as a result of feedback received from a Professional Activities and Knowledge Study (PAKS) conducted by the NCEES subcommittee responsible for overseeing the Electrical and Computer PE exam.

“The results of the PAKS did not support the breadth examination in its current form,” said Frank Loudon, P.E., the chair of the NCEES electrical and computer exam subcommittee. “The majority of respondents indicated that the breadth knowledges presently examined are not important for engineers in the computer and power fields of practice. However, many of the breadth knowledges were rated as important for those in the other areas of electrical engineering.”

The changes to the Electrical and Computer PE exam will not affect the October 2008 exam administration, which will be the final time the exam is offered in its current form. The revised specifications will be posted on the NCEES home page (www.ncees.org) after the October 2008 administration.

NCEES Unveils New Award for College Engineering Programs

Engineering programs from colleges across the country now have the opportunity to compete for a \$25,000 award sponsored by the National Council of Examiners for Engineering and Surveying.

The NCEES Engineering Award for Connecting Professional Practice and Education will be awarded for the project that best demonstrates a meaningful partnership between professional engineers and students.

All EAC/ABET-accredited programs are encouraged to submit entries featuring such collaboration. Submissions could include projects or activities such as field opportunities for students, practice-oriented course design, or collaborative projects partnering students and local engineering firms. To be eligible for the 2009 award, projects must be in progress or complete by December 31, 2008.

Entries will be judged by a jury of engineering deans, NCEES members, and representatives from the National Society of Professional Engineers, the American Society for Engineering Education, the National Academy of Engineering, and ABET, Inc.

The jury will award a grand prize of \$25,000 and five other awards of \$7,500 dollars each. The NCEES Engineering Award represents another step in the Council’s efforts to promote licensure to engineering students.

“We’re excited about introducing the NCEES Engineering Award and expect it will be well received by the engineering schools,” said NCEES Executive Director Jerry T. Carter. “By funding this award, the Council hopes to promote the development of innovative projects that encourage more students to start on the path to professional licensure.”

Detailed information about the award, including a downloadable entry form, is available at www.engineeringaward.com.

CONGRATULATIONS!

THE KANSAS STATE BOARD OF TECHNICAL PROFESSIONS is pleased to announce that the following individuals have successfully passed the April 2008 **Fundamentals of Surveying Examination** and have received their **Intern Land Surveyor Certificate**.

Renewals for

Corporate

Certificate of

Authorization

Certificates of Authorization must renew every two years. Renewal forms will be mailed on or before November 1, 2008 to companies with a current KSBTP Certificate of Authorization. Renewal forms will be due December 31, 2008. Renewal fee is \$120.00.

An “Affidavit of Responsibility” form will also be mailed with renewal forms. This form must be signed by the Responsible Officer. The Responsible Officer for a company must also be an Officer of the company. If a new Responsible Officer is being named for the 2008-2010 renewal period, please include documentation confirming that the new Responsible Officer is also a Corporate Officer.

Questions concerning this important requirement may be directed to the Board Office at 785-296-4800.

New KSBTP Certificates of Authorization

from May 15, 2008 to August 12, 2008
